The Radix IoT Cloud¹ for Multi-site Enterprise

Avoid the complexity of setting up and running your own cloud Ecosystem. The Radix IoT Cloud allows you to connect all of your multi-site enterprise licenses in a single managed location allowing global monitoring and management from anywhere on your terms.

\$250 /yearly hosting fee per cloud instance
\$10/month per client

- Radix IoT managed, upgrades, and backed-up
- Minimum monthly hosting fee of \$50 a month
- Full Mango Cloud Enterprise Multi-site license included in monthly fee
- Storage limited to 2 years at 15 minute intervals on average
- Pricing based on U.S. cloud deployment; call for international pricing
- UX/UI Services provided at an additional cost

Optional Hardware

Mango GT³ Hardware Device

- Baseline hardware for Mango
- Easily mounted directly into Control Panels
- Fully customizable and cost effective
- Deploy any license up to 1000 points

\$20 /month or \$599

RD 121C²³ Hardware Device

- Industrial Hardware for Mango up to 3000 points
- Small form factor ideal for OEM applications
- Global Cellular Back-haul capable 2
- Serial RS232/RS485 & Digital I/O
- Dual Ethernet

\$38 /month

RD 201C²³ Hardware Device

- Industrial hardware for Mango up to 5000 points
- Global cellular back-haul capable 2
- Quad serial RS232/RS485 & digital I/O
- Dual ethernet
- N4200 processor for real-time throughput

\$58 /month

1. Native support for up to 250 Monthly Enterprise Multi-site licenses. For larger installations contact sales@radixiot.com
2. Cellular service optional. T-Mobile offered in the United States only at an additional cost of \$20 per month. T-Mobile service is capped at 2GB per month and is for the U.S. only. Other cellular services and regions supported at owners expense.
3. Hardware requires separate Mango license.
