

## MONTHLY ENTERPRISE MULTI-SITE LICENSES

With monthly Mango enterprise licenses, you get all the upgrades and ability to connect Mango instances to the cloud allowing remote monitoring and management of locations in the tens of thousands. These licenses allow for low-cost operation of multiple site portfolios even when point counts are high and include upgrades for the life of the 4.0 subscription. Additionally, Radix hardware can be bundled in monthly to allow for turnkey solutions.

100 data points

**\$35**

per-installation  
per month

250 data points

**\$50**

per-installation  
per month

500 data points

**\$60**

per-installation  
per month

1000 data points

**\$80**

per-installation  
per month

Additional data points sold a in packages of 250 datapoints for \$15 a month.

Avoid the complexity of setting up and running your own cloud Ecosystem. The Radix Cloud allows you to connect all of your multi-site enterprise licenses in a single managed location allowing global monitoring and management from anywhere on your terms.
